

## Power and fiber optic rotary joints reliable for power and data transmission

In many applications, a rotary joint is required not only to deliver power but also power, data signal, gas or liquid together in one integrated rotary joint.

To respond to the rising market for integrated solutions, JINPAT has developed a broad range of integrated products with combinations of data and power in multiple mechanical configurations to meet your application needs.

Model	Power	FORJ	Insertion Loss	OD x L(mm)
LPC-1F0406	24 circuits at 2 amps	one channel	<2dB	∅ 24*57.9
LPC-50T-FO02	50 circuits at 2 amps	two channel	<4dB	∅ 60.8*120
LPC-1F2402	24 circuits at 2 amps	one channel	<2dB	∅ 24.8*54.8
