High Power LED Work Lamp
aluminium die cast housing
low profile design
4500 Lumen
12V - 36V
12V - 53 Watt, 24V - 60 Watt
operating temperature -30° - +50°
cable 2,0m / AMP SUPER SEAL
connector / DEUTSCH DT connector
ADR-approved, IP6K9K

Description

Tags

The PROPLAST ROCK is the bedrock of our lighting system. It's a powerful dome that cuts through the darkness and throws light on the tiniest dust particles. This version of the PRO-POWER-ROCK LED work light manages 4,500 lumen and is ideal for all kinds of situations. Wherever high-powered machines are used, that's where you'll find these work lights. Adverse working conditions and long hours make it difficult for regular work lights to provide the necessary illumination and level of safety. So we developed and manufactured the PRO-POWER-ROCK. This lamp was designed to operate without problems for a long time, and it does so with style. The core features of this lamp are its robust aluminium housing, tempered glass lens, watertight seal and, of course, shock-resistant LEDs. All these factors come together to bring you this almost indestructible LED work light from the ROCK series.

Specification:

Length (mm)	240.4
Width (mm)	70.4
Height (mm)	93.1
Weight: (kg)	0.37
Voltage	12-36 Volt
Manufacturer	Universal
IP / ADR / GGVS	IP6K9K / ADR / GGVS
